End-to-end rich media collaboration

Resolve Collaboration Services Corp. offers a complete portfolio of videoconferencing equipment ranging from PC based desktop systems and compact set-top units to executive boardroom solutions. Our customized installation services and our unique Resolve R.A.C.E.R. advanced coverage program provide our customers with comprehensive solutions.

Resolve is committed to delivering end-to-end rich media collaborative applications. These solutions will help your organization to address overall business drivers such as cost and manageability, the requirements of your enterprise's IT group, and the usability requirements of your employees.

Benefit from our complete solution;

- Installed Videoconferencing Solutions
- Installed Audio Solutions
- Desktop Solutions
- Portable Solutions
- Boardroom Automation and Integration Solutions
- Boardroom environment enhancements (lighting, furniture, decor)

Our planning services help you define which conferencing, audio-visual, peripherals, furniture and other products best suit your specific requirements. Each of our conferencing specialists is here to work with you in designing the right system for your needs.

Call us today to arrange an on-site consultation.
